# SILVA TROPHY SEVA CUP - CÂMPIÑA CUP LATIN COUNTRIES CUP - MĂGURENI CUP

CÂMPIÑA / MĂGURENI / CÂMPIÑA

The competition areas for this year's Silva Trophy have never been used before for orienteering. The maps are made with the help of Lidar technology, by the Suncart Company and mapped by mr. Ionut Zinca.

The forest has a typical sub-Carpathian terrain, it is mostly good for running, but with a remarkable height difference. About the urban-sprint stage we can tell you that it will be organized in the centre of Câmpina and we hope you will have a pleasant experience.

Enjoy!

The urban-sprint stage (29th April) is followed by two great competitions of orienteering, organized by C.S. Metropolitan in the afferent area of Comarnic City.
